One of these sheets is to be firmly affixed with a staple to the cover of all written and drawn assignments. In the case of portfolios one coversheet should be taped to the outside of the "folio and further coversheets attached to assessment components of the "folio which are the result of group work.

Submitted work covered by this sheet will be marked as a complete and final submission. If any component of the assignment task has not been included here it cannot be considered as submitted for assessment.

It is the student's responsibility to keep a copy of submitted assignments until after the Examination results have been released.

Assignments must be submitted to Assignment Bins on Level 3, Zelman Cowen Building, to the course co-ordinator, or online as advised.

Marked assignments will be returned in class, by arrangement with the course co-ordinator, or collected from the EAIT Assignment Centre, Hawken Engineering Bldg 50, Room S203 between 10:00am-2:00pm.

Read and Sign:
I have read and understood the University’s Student Integrity and Misconduct Policy which includes cheating, collusion and plagiarism (http://ppl.app.uq.edu.au/content/3.60.04-student-integrity-and-misconduct). This assignment/portfolio is my/our own work, containing nothing which has been submitted for assessment elsewhere. Where I/we have drawn on the work of others this has been appropriately and fairly accredited.
